

Technical drawing of a beam cross-section. The drawing shows a horizontal beam with a total width of 13.5. The beam is divided into three sections by two vertical lines, with dimensions 100, 7X100, and 100. The beam is supported by a vertical wall. The wall has a thickness of 13.5. The beam is reinforced with four vertical bars, each with a diameter of 10. The total length of the beam is 927. The drawing is labeled with 'A' at the top and bottom right corners.

1. TOLERANCE GIVEN FOR INTERMEDIATE DIMENSIONS MUST NOT BE ADDED AS REGARDS HIGH AND LOWER LIMITS TO OBTAIN OVERALL DIMENSION.

THIS IS A COMPUTER GENERATED DRAWING. ANY MANUAL ALTERATION SHALL AUTOMATICALLY RENDER IT INVALID.
