

## Press Release

### **BEML Ltd Launches Indigenously Designed Motor Grader BG 1205 to Strengthen India's Mining Sector**

**April 05, 2025 | Mysuru** –BEML Ltd, one of India's leading mining and construction equipment manufacturers, proudly announced the launch of its indigenously designed and developed Motor Grader BG 1205 at its Mysuru complex. The launch ceremony was graced by Shri Shantanu Roy, Chairman and Managing Director of BEML Ltd., who flagged off the equipment's onward journey in the presence of Shri Harish Duhan, Chairman and Managing Director of South Eastern Coalfields Ltd. (SECL), along with BEML's functional directors and officers.

This significant milestone underscores BEML's unwavering commitment to self-reliance and aligns seamlessly with the Government of India's Atmanirbhar Bharat vision. The BG 1205 is a testimony to BEML's robust engineering prowess and its dedication to advancing the nation's mining capabilities.

Equipped with an impressive 24-foot blade, the BG 1205 has been meticulously crafted to meet the evolving demands of the mining sector. Designed especially for high-intensity operations in regions such as SECL Bilaspur and Northern Coalfields Limited (NCL) in Singrauli, this state-of-the-art equipment is tailored to support the increasing need for efficient road-laying machinery capable of handling high-capacity dumpers. With a focus on superior performance, the BG 1205 is set to enhance productivity, ensure operational efficiency, and contribute significantly to the sustainability of mining operations.

Expressing his pride in the achievement, Shri Shantanu Roy stated, "This launch is a reaffirmation of our continuous pursuit of research and development to build modern equipment that future-proofs the mining sector. It is a proud moment that reflects our dedication not only to technological innovation but also to empowering our partners in the mining industry. We are deeply grateful to the CMD of SECL for his invaluable support and the opportunity to develop this iconic equipment that will strengthen India's mining infrastructure."

Echoing this sentiment, Shri Harish Duhan, CMD of SECL, remarked, "We have always placed our trust in BEML's equipment to deliver value in our mining explorations. The introduction of BG 1205 is a clear testament to BEML's rigorous research and commitment to delivering cutting-edge solutions for the mining industry. We look forward to leveraging this advancement to further enhance our operational capabilities."

As India's mining sector witnesses a growing demand for modernized equipment to support infrastructure development, the BG 1205 will play a pivotal role in driving sectoral growth and supporting Coal India Limited's vision of reducing dependency on imported mining equipment.

With this launch, BEML Ltd. continues to demonstrate its leadership in indigenous manufacturing and its commitment to building a self-reliant India.

### **About BEML**

BEML Limited, a leading multi-technology 'Schedule A' company under the Ministry of Defence, plays a pivotal role in serving India's core sectors, including Defence, Rail, Power, Mining, and Construction, by offering world-class products. BEML operates in three verticals: Defence & Aerospace, Mining & Construction, and Rail & Metro. It has state-of-the-art manufacturing facilities located in Bengaluru, Kolar Gold Fields (KGF), Mysore, and Palakkad, with a strong R&D infrastructure and a nationwide sales and service network. With a legacy spanning six decades, BEML is a committed player in manufacturing earthmoving, transportation, and construction equipment, driving excellence and innovation.
