BEML Inaugurates Tech Milan 2025: Pioneering Dialogue on AI, Robotics, Quantum & Emerging Technologies

Kolar Gold Fields | August 29, 2025 – BEML Limited successfully hosted Tech Milan 2025, its National Conference on Emerging Technologies, envisioned as a dynamic knowledge-exchange platform to deliberate on next-generation technologies and disruptive innovations. The event was inaugurated by Shri Shantanu Roy, Chairman & Managing Director, BEML Limited, in the presence of Admiral Karambir Singh (Retd.), former Chief of Naval Staff, Dr. Shailendra Gade, former Director General, DRDO, along with BEML's Functional Directors, Advisors, eminent guest speakers, and participants from academia, industry, and research institutions.

Building on the success of its maiden edition, Tech Milan 2025 further strengthened its position as a premier forum for technology convergence. The conference brought together global technology leaders, pioneering researchers, entrepreneurs, and innovators to deliberate on breakthrough ideas and future-defining solutions. Prominent participants included MathWorks, NVIDIA, Siemens, AMD, Intel, Ansys, KPIT, INDIFY Horizon, and Tata Elxsi Limited, who shared transformative insights on the future of technology.

The thematic sessions explored a wide spectrum of disruptive domains including artificial intelligence, robotics, quantum computing, sustainable energy, digital twins, advanced manufacturing, autonomous mobility, and space technologies. The conference went beyond knowledge-sharing, fostering collaboration across industries and geographies.

Speaking on the occasion, Shri Shantanu Roy, CMD, BEML Ltd., said: “At BEML, we believe technology is not just about advancement—it is about co-creating a better tomorrow. Tech Milan 2025 reflects our commitment to uniting the brightest minds and building a future-ready ecosystem for innovation, sustainability, and inclusive growth.”

Highlights of Tech Milan 2025:

- ❖ Engaging sessions on disruptive technologies and their global impact
- ❖ Keynote addresses by distinguished global technology leaders
- ❖ Showcase of futuristic products, research, and innovations
- ❖ Collaborative forums connecting entrepreneurs, researchers, students, and policymakers

With Tech Milan 2025, BEML once again reaffirmed its role as a catalyst in India's technological journey—facilitating bold ideas, driving meaningful collaborations, and shaping pathways for a smarter, sustainable, and inclusive future.

About BEML : BEML Limited, a leading multi-technology 'Schedule A' company under the Ministry of Defence, plays a pivotal role in serving India's core sectors, including Defence, Rail, Mining, and Construction, by offering world-class products. BEML operates in three verticals: Defence & Aerospace, Mining & Construction, and Rail & Metro. It has state-of-the-art manufacturing facilities located in Bengaluru, Kolar Gold Fields (KGF), Mysore, and Palakkad, with a strong R&D infrastructure and a nationwide sales and service network. With a legacy spanning six decades, BEML is a committed player in manufacturing earthmoving, transportation, and construction equipment, driving excellence and innovation.
