Press Release

BEML Records Strong H1 FY27 Performance; Revenue Grows 36.5%, EBITDA Surges 125%; Order Book Crosses Historic ₹20,000 Crore Milestone

November 05, 2026 | Bengaluru: BEML Limited, a leading Defence Public Sector Undertaking under the Ministry of Defence, Government of India, has registered a strong performance during the first half of FY 2026–27 (H1 FY27), reflecting its growing business momentum, operational progress and expanding engineering capabilities across Defence, Rail & Metro and Mining & Construction Equipment businesses.

The company recorded a 36.53% growth in Revenue from Operations to ₹2,011.23 crore during H1 FY27, compared to ₹1,473.08 crore in H1 FY26. EBITDA more than doubled, registering an impressive 125.11% growth to ₹88.76 crore, against ₹39.43 crore in the corresponding period last year. BEML also achieved a significant turnaround in profitability, posting a Profit After Tax (PAT) of ₹5.67 crore, compared to a loss of ₹9.12 crore in H1 FY26.

A defining milestone in the company's growth journey has been its historic ₹5,400 crore contract from the National High Speed Rail Corporation Limited (NHSRCL) for the Mumbai–Ahmedabad High-Speed Rail project. The largest single order in BEML's history, this landmark contract underscores its advanced rail engineering capabilities and marks a significant leap in its evolution as a player in next-generation mobility solutions.

Further strengthening its international presence, BEML has secured a prestigious USD 60 million Letter of Intent for metro rolling stock in the African region, along with a USD 1.3 million export order for its indigenously designed and developed 6x6 High Mobility Vehicles (HMVs) for the Middle East. These achievements reflect growing international confidence in BEML's engineering expertise and its ability to deliver specialised mobility platforms for diverse operational requirements.

In another significant demonstration of indigenous engineering excellence, BEML unveiled India's first indigenously designed and developed 60-tonne Electric Dump Truck, BH60-EV, at its Mysuru Complex. This breakthrough marks an important step towards sustainable mining and infrastructure solutions, reinforcing the company's commitment to advanced technology, energy efficiency and self-reliance in heavy engineering.

Reflecting its expanding business scale and strong order acquisition momentum, BEML's total order book has crossed the historic ₹20,000 crore milestone, the highest in the company's history.

This robust order pipeline provides strong business visibility and positions the company to capitalise on emerging opportunities across strategic sectors, both in India and international markets.

About BEML: BEML Limited, a leading multi-technology 'Schedule A' company under the Ministry of Defence, plays a pivotal role in serving India's core sectors, including Defence, Rail, Mining, and Construction, by offering world-class products. BEML operates in three verticals: Defence & Aerospace, Mining & Construction, and Rail & Metro. It has state-of-the-art manufacturing facilities located in Bengaluru, Kolar Gold Fields (KGF), Mysore, and Palakkad, with a strong R&D infrastructure and a nationwide sales and service network. With a legacy spanning six decades, BEML is a committed player in manufacturing earthmoving, transportation, and construction equipment, driving excellence and innovation.
