

BEML'S FIRST INDEPENDENT MEDICAL OXYGEN PLANT

Our BEML-KGF Team has successfully completed rollout of BEML's first independent Medical Oxygen Plant (under the supervision of DRDO). The plant is under trials and is showing great results.

The final assembly was completed at night 1 am (30.05.2021), the balance whole night, the team was monitoring the results.

This display monitor above is looking like a dream. Compliments to each one of the Team for the wonderful efforts towards saving the lives of citizens of our country.
